

NATIONALLY RECOGNIZED The Ozzy Experience,  
Crazy Babies - Ozzy Rebourne!

Providing the most realistic look, sound and high energy feel of an actual Ozzy experience,  
Crazy Babies is able to recreate all genres of Ozzy's  
entire solo catalog and favorites from his huge Black Sabbath career.

"Ozzy" Michael "Boyd" Quinton is Ozzy's doppelganger! His vocals and mannerisms while interacting with the audience sells the illusion of watching Ozzy himself.

Guitarist Keith Holstein not only resembles Zakk Wylde, his playing style mimics both Mr. Wylde and Randy Rhoads, which makes this show that much more entertaining and believable. The veteran rhythm section drives this Crazy Train off the rails to an incredible Ozzy experience...this band kicks ass!

Crazy Babies' hard work and professional approach make them a super entertaining show band with seasoned musicians who are easy to work with, which we think is equally important. You will not be disappointed!
